

SPECIFICATIONS

Specifications	Aqui-Dri
Model No.	1094650
Height	18" (457mm)
Width	18" (457mm)
Depth	18" (457mm)
Weight	30lbs (14kg)
Voltage	110V
Phase	1
Frequency	60 Hz
Current	6.25 A
Power	375 W
Airflow	2400cfm (4080m3/hr)
Noise Level	50 dba

Features	Aqui-Dri
Model No.	1094650
On/Off Control	✓
Finger Guards	✓
Cable Wrap	✓
Rubber Anti Vibration Feet	✓
Fitted Mains Plug	✓
Large Balanced Carrying Handle	✓
Speeds	3

CAUTION

NOT DESIGNED FOR OPERATION IN EXPLOSIVE OR FLAMMABLE ATMOSPHERES

PROVEN PERFORMANCE

If you need fast, efficient, dependable drying power, this stackable ½ hp EIPL unit will get the job done. The EIPL Aqu-Dri Air Mover is a rugged yet portable piece of equipment.

THE PROBLEM

EIPL is a recognized world wide supplier of flood restoration drying equipment. We offer a variety of dehumidifiers and air movers to remove water and assist with drying areas after water damage. Following a flood, whether it is in your basement or office, it's vitally important to restore the damaged area to good order as soon as possible to protect your health from microorganisms, mold and bacteria that may grow and ultimately prevent further damage. Whether it is a flash flood, hurricane, heavy rains or water main break, EIPL has the equipment to handle the harshest environments and assist with proper restoration.

THE AIR MOVER

EIPL's Aqu-Dri air mover is a great supplement to EIPL dehumidifiers to speed the drying of wet carpets, pads, floors and walls. Our exclusive aerodynamic design delivers maximum performance - more airflow and higher static pressure than other models. The compact size of the Aqu-Dri allows multiples of these units to be easily moved from job site to job site. The housing also allows for the carpet fan to operate in 4 different positions.
